

*Oh glory be to things that grow!
That burgeon, blossom, bud and blow
In Springtime's light and airy breeze,
Which ruffles softly new sprung leaves...**

Spring Arrives In Time - Oregon's Spring Break

Yes we're in full bloom at the LCI. This last Tuesday' temperature was in the low 70's with the rest of the week staying in the low to mid 60's. Showers have only encouraged the grass to grow at a more rapid pace – yes, our lawn mowing service has been contacted! Thought you'd like to see the daffodils in full bloom before they go away – Thank you Mike and Sherrie for your continued care to the upper meadows and gardens.

*...O Daffodil! O Daffodil!
That covers well each downy hill—
E'en Solomon was not arrayed
In splendour such as you displayed.**

Demand Skyrockets and Supply Declines *(from the Statesman Journal)*

In a recent article this week, Zach Urness writes about Oregon's growing population and the continued pandemic-fueled rush to the outdoors. The booking site for Oregon campgrounds alone reports a 325% increase since 2019. Camping space availability is quickly diminishing as we come into Spring and Summer. Urness notes that if it's near the ocean, lake or *RIVER*, there's a good chance it's going to be booked full. At the Log Cabin Inn I've noted that our 10 rentals show an estimated combined average of 60% occupancy for March. That's an average 19 user days each already! April's reservations for the same are already plus 30%.

"If it's near a...river there's a good chance it's going to be booked full."

I hope it's a good season for all. Tg

Missing Lawn Chairs?

It appears that the common areas of the LCI are considered the gems of the property. Wherever the sun can be found, whether in the upper meadows, the main and lower east meadows, or all along the river front from points east to way down river to the bridge you will probably find our guests enjoying themselves. You may also find one or several of your chairs

if you have lost them. I've been asked to provide a reminder to owners that a new form of musical chairs is being played at the LCI. If you find that you are missing any of your outside chairs look to the sunny sites of the property. Cabin number might be good on the chairs as well as a note to your guests identifying what your chairs look like and where you would like them kept before they vacate. It may be too, that they were left in one of the meadows and the lawn service had to move them out of the way. Remember all of our guests are just visitors passing through. They might need a little guidance from you or your management team. Thanks!

LANDSCAPE MANAGEMENT

Last month I identified ongoing maintenance needs and some specific projects that need attention. In that short time frame several of you have stepped up and taken on the challenge. Attached below is the updated list for the overall property. Thanks to those who have pitched in to help. Your dedicated support to maintaining the beauty of the area is appreciated.

Regular Maintenance Needs	
Blow debris from asphalt paths and driveways. West <i>Asphalt pathways on the SW side of the property including:</i> SW Hill, handicap path, and path along cabin 3, 4, and 5.	Taken
Blow debris from asphalt paths and driveways East	Available
Remove webs and debris from garage light fixtures SW Garages SE Garages East Garages NW Garages	SW Taken SE Taken Available Available

**Notice: Next Board Meeting April 6,
6pm-7pm
Passcode: zag-moym-zcn (Google Meet)**

Oh Spring, indeed, thou teachest well
That man, though wise, knoweth not the spell
Which makes all things by beauty bound —
____ That Mystery which none hath found.*

May your April showers bring to you an abundance of May's flowers – see you at the River!

Ted Gillette, LCI board president.
